Subject: Regulations

Attached are suggested drafts of amendments to Regulations 81 and 82.

As per our recent discussion, it appeared advisable to repeal the present Regulation 49 and divide it into two entirely new regulations, which I have done under the numbers Regulation 49 and Regulation 49.5.

I have attempted to incorporate into these regulations the language that will carry out the principal intent of the petitioner, the Washington Beer and Wine Wholesale Association, which is to permit the posting of whole/^{sale}prices by the wholesaler rather than the manufacturer. These points were for the most part agreed upon by the Wholesale Association and The Brewers Institute.

While the regulations dealing with beer do not embody the request of the Brewers Institute for beer to be delivered at uniform prices to the wholesaler, I have included provisions which I feel will tend to prevent "scalping of the market" or other disruptive practices, which appear to be of the greatest concern to the local brewers.
